GEMS OF THOUGHT

Do not think that nothing is happening because you do not see your feet grow or hear the whirr of the machinery. All great things are

Easy Method Of Growing Grass

For those who want to grow grass instead of mowing it, there is reported to be a device which is alleged to be a patent. This consists of strips of paper containing seed and fertilizer imbedded within the strips. These strips are stretched on the ground, covered with a little soil and soaked with water. The paper dissolves into the soil taking the seed and fertilizer with it and, it is claimed, grass appears in four or five days. A method of easy grass growing has been sought for centuries. If this one works, then the gardener's millennium is at hand.
